Strengthening families, changing lives

William Campbell Foundation recognises that wherever possible, children do best with their family, or when living with people who can care for them permanently.

William Campbell Foundation strongly supports and advocates for restoration with family or kin, where it has been established that this is a safe and permanent option for children and young people.

We need more foster carers to be part of the team to work closely with the child or young person, their family, significant others, William Campbell Foundation and other services, to create a positive and supportive environment for the child or young person to return home.

William Campbell Foundation will provide initial and ongoing training, 24/7 on call support, caseworker support, clinical support and a carer allowance to assist you on your journey in reuniting families.
