

Permanency Support Program
Immediate/Short Term Care

Immediate/Short
Term Care

**william campbell
foundation**

Strengthening families, changing lives

Immediate/Short Term Care is when a child or young person, at short notice, needs a safe place to stay overnight or up to six months. During this time, our team are assessing what the suitable permanent placement options are for the child or young person.

During a time of uncertainty and change, children and young people need consistency and routine. There is an urgent need for immediate and short term carers and we need exceptional people who are ready and willing to support children and young people in our community.

William Campbell Foundation will provide initial and ongoing training, 24/7 on call support, caseworker support, clinical support and a carer allowance to assist you on your carer journey.

“ **Providing immediate care to vulnerable children has filled my heart. I know that I am being the difference for these children in a very special way.**
